(54) FIXING DEVICE

(57)Abstract:

PURPOSE: To provide a fixing device which is improved in heater replacement.

CONSTITUTION: An insertion guide 16 is provided at the root of a heater terminal 15 provided at the front end of a heater-bundle line 14, and the projecting parts of the insertion guide 16 are provided at prescribed angles in the direction of the radius of a fixing roller 2 so as to spread radially in the fixing roller 2 and so as to facilitate the passage of the line through the fixing roller 2. The end of each projecting part of the insertion guide 16 is provided with a straight part 16A, thereby preventing an inclination of the insertion guide 16 in the fixing roller 2, and positioning the heater terminal 15 in the middle at all times.
